REMEMBER THE 60'S? Acres of avocado green and harvest gold shag carpeting inside, with rows of round trimmed yew bushes, looking like big fat birds, for landscaping in the yard?

Barbarry Heights is *NOT SO SIXTIES* now! Five neighbors are inviting you to see their remodeled family homes and four more are showing their West Lafayestte Beautification Award gardens. All the homes have been updated and remodeled, highlighting what owner effort and imagination can do to transform homes and landscaping.

Please join us to see large open spaces, lofts, wide windows, new kitchens, and family antiques mixed with new colors and collections. Gardens include Japanese, cottage, with medicinal and aromatic plants, and just beautiful.

--Maybe a few new ideas, and at least a lovely afternoon!
